DEVELOPER OF SOFTWARE

## Work experience

### DEVELOPER OF SOFTWARE

SISTRAN Consultores |  
MAY-2024 – Present

Development and maintenance of systems for the insurance sector, focusing on the implementation of new features and the optimization of internal processes. Experience in creating, customizing, and supporting policy printing tools, including end-to-end service management and template adaptation according to client requirements. Focused on ensuring scalability, efficiency, and operational continuity in critical environments.

### SOFTWARE CONSULTANT

Excelencia Digital Soluciones Informáticas |  
MAY-2022 – AGO-2023

Consultant for the development of individual projects and training of new team members, contributing to knowledge transfer and the continuous improvement of work teams.

### DEVELOPER OF SOFTWARE

Excelencia Digital Soluciones Informáticas |  
MAY-2022 – AGO-2023

Development and maintenance of an electronic medical records management system for hospitals and clinics, with a focus on migrating outdated technologies and versions. Integration of complementary tools, such as fingerprint scanners, into the system, and development of a predictive model using artificial intelligence to optimize clinical processes and support decision-making.
